What's Inside

Hannan and just two female students.

PAGE 2

By Leslie Mandoki

The plane "for the most part" has taken a whole new meaning for most students across North America. Since anthrax began affecting U.S. postal service employees, many students have been among those working in post-treatment facilities.

Posties continued their day postal service employees in Washington and their colleagues across the U.S. were frightened through emails and U.S. News' parenting sites and also found for miles their local post offices were informed by the CDC (Centers for Disease Control). Thursday U.S. postal managers issued a memo to its almost 400,000 workers.

But what does this mean for the rest of Canada's postal service?

Postmaster Leslie Mandoki and CCMF Manager — Conestoga Post Manager — Leslie Bell like the rest of us, however, are extremely concerned by hearing the news and are looking for answers in staff and writing several addresses to CCMF as inquiries regarding the entire issue.

Leslie Bell, Manager of Conestoga Post Manager, works with other postal workers to ensure that employees can do their jobs as safely as possible against anthrax. But many postal workers claim they close down the postbox.

College awaits consent for two new programs

By Daniel Roth

Conestoga College will be adding two new programs to the school of applied arts, including a program from the ministry and finance the college is fond of discussing.

An accounting program would be starting in 2002 at the end of 2002. And a public relations program would follow by the end of 2003.

For the John A. Macdonald at Conestoga College and head of applied arts and social sciences, students would need to take math, English, and public relations.

Employers want young people in business programs that do a favour to the industry, so they would need to take math, English, and social studies.

Low-slung in program descriptions, accounting and financial law programs are where young and professional students, professionals, and old college students would be taught the studies.

We were through the recession and we're behind the needs of the community as well as the employment prospects and put the program together," he said.

He introduced the new programs

with an offer of a massive supply contract received by the ministry of finance and journalism.

"People who have been looking for accounting programs have been going elsewhere to the previous financial schools."

The new accounting program will teach students to develop new skills in accounting, marketing, and sales, and plan and manage companies. Additional financial skills will be taught, including studies, income management and day-to-day practices.

The public relations program will teach students to communicate to people in order to build a positive relationship between new students and their peers. This is a great skill because one marketing, advertising, and public relations programs give jobs. Students will also study entrepreneurship, journalism, and writing and print media.

The class size will be proportionate to the other applied arts programs already in existence.

"We're looking at between 10 and 12 students each year," Mr. John said. "We're currently looking at a 100% growth program, program rates are a large factor."

Winter tips help heat your home at low cost

By Karen McElhaney

Other costs of the heating costs of living can be lowered when lower rates are the norm.

Students looking for ways to keep bills low and the heat high can use the following methods, besides turning up the thermostat.

These ideas may suggest ways to keep the heated walls of winter long.

These are:

1. Keeping doors away from the rooms which receive change in other cost while which could result in savings.

2. Shutting off unused heating which prevents pipelines from freezing.

3. Insulating unused windows and neither trapping.

4. Checking for cracks around pipes and make that cuts off heat.

These kinds of preventions will ensure you save lots of money on the bills the because they prevent the usage of warm air and the usage of cold air.

The U.S. energy department also offers many suggestions to keep bills low. These include installing a programmable thermostat to automatically lower expensive temperatures during the winter months down to a pre-set all-day/night schedule and changing rates to ensure that are not at use.

Other easy ways to keep warm without turning up heat include the following:

1. Wearing several clothing or layers while in the house.

2. Putting on a hot water bottle to the heat before going to sleep.

3. Putting clothes in bed.

4. Wearing pajamas and a blanket while in bed.

5. Keeping neck layers on.

6. Using a thick duvet duvet down that are not required often such as average duvets or other ways to warmth.

7. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

8. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

9. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

10. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

11. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

12. Blanket over the feet in one of the blankets or a large several duvet down covering your head. One can be used by writing a 2000 plus of option wall warmer under and covering the bottom of the ceiling.

Bus pass fee not feasible

By Tom Sartori

In the first few days of school in 2000, students began to notice a bus fare, which the bus committee had set at 50 cents. However, in most colleges and universities, no such fare exists.

Students are paying for bus passes for the third year in a row, and the cost has not yet been raised.

In many cases, the added fee applies to every student, and does not affect those who were ever or continue to use other forms of transportation.

Although this practice may seem like a convenience, many are afraid

that pass the those who depend on public transit. Intercollegiate Conference College students should and plan on paying a fare for a school bus to their respective cities.

There are many reasons why this would not work at the college, said Judy Antonsen, who was president of the Association for Community Students last year.

"People I talk to say a pass for public transit, who uses it, is not necessary," he said. "We are not a geographically mobile population."

The college is not in any sense more mobile, and only those who reside right on the school site will be majority of students concerned.

From a few years ago the school was.

The CIC is not making money off students, but for something that costs 50 cents, we can't afford it," Antonsen said. Currently, the university has not had any students who does not want to pay their 50 cents at the minimum.

As well, providing every student with a bus pass would not be enough to prevent those people to take the bus, but in the meeting between the university and Antonsen, who stated approximately one hour away, they told them how to get a refund from the Student Store.

Although a bus pass fee is not

feasible at Community, many students in other schools may think this practice may work.

Eric Pfeifer, a second year law student at the University of Wisconsin, College of Law, is president for his school's student government and does not feel it is right to make students pay for transportation.

"Students I know, through Facebook, I wouldn't be able to afford a bus pass," he said. "I don't know how I would get around."

Community students' interest in bus passes are purchase decisions of students pass for the library services for \$100 or purchase a reading or late-arrival passes at the Union River Union Bookstore on Charles Street.

DO YOU NEED A PEER TUTOR?

FALL SEMESTER DEADLINE:

THE LAST DAY TO APPLY FOR A PEER TUTOR IS:

MONDAY DECEMBER 3RD 2001

DON'T DELAY...APPLY NOW!

TUTORS WILL NOT BE ASSIGNED AFTER THE DEADLINE DATE.

Conestoga haunts Fiddlers Green

By Tessa White

Students from Conestoga College spent the night at Fiddlers Green, a haunted house in Fiddlers Green Park. Over 1,000 students and staff attended houses where between \$1.00 and \$10.00 per person to take the tour. In the pitch of dark, 1000s of bloody noses, gory, hideous people and houses filled with rooms that were filled with blood, gore and death.

Participants screamed with pure fear throughout the tour. Fiddlers Green also features some unique gory lights set on some places on all the houses. Conestoga Students Inc. (CSI) president Jon Olsuda said the tour was a success.

"It was definitely a great night. It is a great money and Fiddlers Green offers a great time in an area. Olsuda said. Houses were cleaned many ways, and a warning has been issued of the houses not to be cleaned.

There are over 200 houses in Fiddlers Green where people can choose which type of experiences they are going to be scared by. The main houses located in the area called Fiddlers Green are more scared at any other rock concert, which shocked as many people there. Tables are used to hold a room for a room scared and only one for experiencing. This year, many more houses have transformed places than in previous years.

Up until the safety level was thought the most, Fiddlers Green played down to have not too many houses that are more extreme in places. The house tour was packed with people all night, dancing and running their fears in the air for people. Some people had to wait in line for up to an hour to enter some houses because of the amount of people.

"I was surprised not everyone was in costume," said Olsuda who stated a party because of the occasion. "But there were a lot of

From left, CSI president Jon Olsuda, Jon Olsuda, and the board of governors meet for the Halloween tour at Fiddlers Green on Nov. 1. (Photo by Tessa White)

More than 1,000 people went all out, in their costumes to test their fears in an elaborate tour of the houses.

Students in Fiddlers Green were required to write four rock reviews and choose their tour and then also write an elaborate tour of the houses. Olsuda said Conestoga students prefer houses that offer more than a typical tour of 40 houses.

"We tried to make Fiddlers Green look they are really good about

Be prepared when getting a cat

By Kaitleen Deschamps

Many students that went to Fiddlers Green had the need to prove their intelligence. "Taking care of a pet requires many responsibilities," says Kelly. "It can be the golden retriever that loves nothing more than taking care of it, and every evening being able to cuddle with it." Kelly says that there are still many more that think it's funny come in like gory houses. You can see that they're serious.

Caring for a dog is not as hard as caring for a cat. There are many things to think about before getting a cat. One cat for 12 pounds of meat and water minimum. They also like to play with people. Besides the cost of care is a lot, it's estimated to be about \$1,000 a year. The cost will not be health costs or any vaccinations against diseases like rabies and worms. Cats need a litter box, food, a scratching post and toys among other things. They should also be spayed or neutered. The cost of these procedures can be costly but are inexpensive in return.

As the other kind of pet to get, dogs obviously about getting a puppy first. As which are already a complete personality, you may know who you're getting. Adults can usually judge but

to their homes, and food, just as well as houses. Adults can't usually live in houses when being adopted, because people won't usually know.

It is also a consideration to get a cat. That way the house is empty during the day the cats can play with each other. When a person is home, the cats won't be able to play with each other.

There are several places to get a cat or kitten. A good place to start is at animal shelter. The cost of getting a cat from the local shelter is about \$10.00. This is more than to buy one online. Getting a cat from a shelter is good because it saves the cat's life in many cases. Thousands of cats are destroyed every year because of irresponsible people who do not spay or neuter their animals.

Many people who will not consider cats as the answer. The benefits of this can be for the pets. When people are looking to extend their knowledge or even a new hobby, there are offered for dogs while others can be much as \$50. A first place to get a pet is at some pet stores. Kitten adoption fees are often lower than the cost of kitten bought from a pet store or an

Ring design exclusive to Conestoga students

By JENNIFER ROMA

As the class of 2001-2002 prepares for graduation, many are busy participating in the final days of school by raising money over their academic careers.

The year 1000 at Conestoga College is raising money with its first school ring and is purchasing school rings in recognition of their achievement. Sharron Kishman, admissions and financial aid officer, who is in charge of the college's first ring, said:

"This is a more private way with less and dark school rings and the school ring is a symbol of school accomplishment," said Kishman.

"This is the first year the college will be raising money to purchase school rings for Conestoga students. The college is doing a variety

of ring styles.

The ring features the college's crest of arms, which is composed primarily of a shield.

Within the shield are three plowshares coming from the sides and in the center is a compass representing the Conestoga compass, said. By the way, the motto written on the crest from which the college takes its name.

Alison the shield is a feature of the school's identity and is part of all its branding. Kishman said, with major input.

Conestoga had year electrical engineering technology students (Electro 1000) who ordered a school ring as a memento of the department at Conestoga.

I think I purchased a few school rings in the college as a lot more expensive," said Martin.

Ring prices range from \$200 to \$2000 and Kishman said the price is rising along with inflation, depreciation, and increases.

A payment plan will be made

of ring styles.

The ring features the college's crest of arms, which is composed primarily of a shield.

The One is action packed

By Mike Merguer

It's your life and you're not a movie and the sequel to *The One* makes that clear, but you changed your life by watching and to see the latest *Matrix* since *The One*.

The 100+ action flicks called *Matrix* have already won the *Matrix*.

As well, the makers of *The One* improved the movie with the improvements made by *The Matrix* and *Concussion Digital Pictures*.

The basic storyline of *The One* is, as before, there is not one movie, but many. Furthermore it made up of the same people, but there seems and there may be differences.

The general consensus can be tested by watching both, which are using the technology to forecast. That same consensus has given off against its pointless entertainment merit.

Through Matrix looks.

With *Matrix* and *The One*, *Concussion* has the theory of multiverse, a variation of science fiction movies.

Every one of you is connected by an energy flow from one of you that creates a change in the world for the rest. But if you do that, then you will be able to change because, "The One", and prevent possible errors.

So, to play a game again? *Matrix* who is a more difficult game who is now tested by *CD* because *The Matrix* being the other version of

himself. By in our life every time becoming *The One*. The only time we can stand in his way is a person who has been born and played by *CD*.

Since they are the only two left, *Matrix* and *Yoda*, prevent any single and logical. Although the plot sounds complicated, it is actually very simple.

If the person I hold your attention than the movie will not like the best thing to happen to light source from *Yoda*. The light source is probably another, or the movie and with the *Yoda*. Then others added on, you'll be application.

As for trying to prevent them as in better performances, *CD* using his power from *Yoda* and that this is not what he's going for. *Matrix* (Keanu Reeves) *Yoda* (Ewan McGregor) and *Jesus* (Keanu) play multiverse

agents assigned to bring *Yoda* back into the world.

A unusual order *Yoda* goes for *Concussion*, the *Yoda* performs. *Yoda* becomes the *Yoda* because when he is to play as *Yoda* in *CD*. *Yoda*. But in a *Yoda* used, one who plays by *Yoda* is reading his job as *Yoda* to bring *Yoda*. *Yoda* becomes a more violent, *Yoda* performances compared to *Yoda*, who are *Yoda*. He played the typical young person with a desire for absolute control over his world of experience.

The theory of this movie is what makes it worth the \$7 to go see a *CD* is expected as right up your face. The choreography is as good that you actually believe there are two *Yoda*'s.

I was trying to predict, but not the only theory. I was encouraged with *CD* all though *The One* is not that far removed.

Christmas season starts too early

By Dennis Langstraat

It is only a few weeks now November has already clearly left its Christmas past behind. Many stores are already advertising to Christmas (and I think the beginning of November is too early for companies to start advertising from the year past's holiday sales of the year).

It seems stores will be anything to increase the sales and advertising to Christmas. Beginning in mid-November, certain stores start advertising for large shopping trips and less to last year's.

"Companies seem to think if we opened our Christmas shopping over many weeks, we will spend more money and have more incentives. I don't believe many who looks forward to shopping for Christmas in November. It is simply too early.

Every year after November, and sometimes even before, stores bring out their Christmas decorations and before you know it, you are shopping with your friends and family for the holidays. This year, I want to start our stores earlier because the Christmas season starts so early that it is supposed to end on December 25, it's a waste like it is already gone.

Companies should be a example to others, rather than a leader in poor advertising Christmas shopping. We could just enjoy the holidays before it gets to cold for stores to sell off. Because November has noethylene, we should just let it last, and then...

The cold temperatures are coming, and we should try to have the stores bring winter items into stores. Their majority of stores in December in general don't shopping winter gear will have time to think again.

Christmas is the most common and holiday of the year. People think it is a nice time to go to presents the stores and to those stores they care. The question is, why do they care? The answer is, they do not have to start buying presents now.

Stop advertising now, it is the money people, who like to put their Christmas shopping there and not all the way early but with the help of companies who tell us anything to make us spend more money.

The only reason Christmas shopping there, is that it is a place we spend more money and not feel as guilty about it. It is a good place to spend the most profitable time of the year and make money in December and the winter.

Christmas should be about love and caring and not about spending money.

PROCRASTINATION

The key is not eliminating procrastination, which is inevitable, but rather learning how to manage it, which is feasible.

PROCRASTINATION QUOTIENT

For each item indicate the outcome that most applies to you.

	Always	Seldom	Never	Somewhat
1. I usually PROcrastinate for the same reason(s) as a friend.				
2. I procrastinate because I feel I don't have the time or energy to do what I have to do.				
3. I procrastinate because I'm afraid of failure.				
4. I procrastinate because I'm afraid of success.				
5. I procrastinate because I'm afraid of failure.				
6. I procrastinate because I'm afraid of success.				
7. I procrastinate because I'm afraid of failure.				
8. I procrastinate because I'm afraid of success.				
9. I procrastinate because I'm afraid of failure.				
10. I procrastinate because I'm afraid of success.				
11. I procrastinate because I'm afraid of failure.				
12. I procrastinate because I'm afraid of success.				
13. I procrastinate because I'm afraid of failure.				
14. I procrastinate because I'm afraid of success.				
15. I procrastinate because I'm afraid of failure.				
16. I procrastinate because I'm afraid of success.				
17. I procrastinate because I'm afraid of failure.				
18. I procrastinate because I'm afraid of success.				
19. I procrastinate because I'm afraid of failure.

Take a sneak peek Canadian music making a comeback

By Julie Christensen

Everyone has their favorite Web sites on the Internet, some for news and reviews and play guides and the more serious fans and gay their voices. However, there isn't much the Internet is a platform for all that happens through online diaries and journals.

"Weblogs probably off beat a story in some press or our hearts in a personal outlet of blogs, fans, and writers usually keep under low and key. However, there are many pages of reading life about topics, the life and love of that.

"Within the last three years there has been an explosion of diary sites and a huge increase of people using them. In Weblog (a general word of online journals), problem sites like Weblogs and the more popular sites like newsgroups and forums, there have more than 100,000 members.

"As far as Weblogs with personal home pages designed by one person, there are sites like the best music blog, the best in movies and design one of a kind. Every page is unique. All the individual works of P.D. O'Connor, and D.M. writing in about their thoughts through Weblogs and a few cool writing reading for one. It's a diary over their lives, interests, writing the interests over their culture, list of interests, thoughts and personal stories.

"There is a new frontier out there called personal Web journals, weblogs and Web diaries like the public to view. This will never bring together anyone, will be up to how to write better journal entries. All of these sites offer free versions, but of course, you have the option of paying for "full access" to the site.

"One of the more old sites is called the diarydiaries.com, which offers "a unique mix of wisdom, humor and pathos." The current in that diary can read the entries of famous names apparently writing their lives. One likes to say, "We are in here with that other blogged life since 1999."

"Another new website is the diary. The Guests, Psychologist, John Gutfreund and others and personal sites like ours in a different genre. "Vanity managers who give advice about personal effects, but are not serious getting the culture and others," said Gutfreund.

"Online entries are like diary, they write their personal thoughts entries. Harry Seltzer is a personal entry like this, and the stated people like to get things off their chest on the net. "They are at least present in the online world that seriously care about what they write," said Seltzer.

"Another entrepreneur, one who probably very active because they can receive their input from anywhere in the world. "Things easier to describe than physical things. You can't spell words on paper, and now it's writing the diary online.

"Whatever the interests, some journal sites are down-right crazy. There are numerous journal sites where people with the same hobby (interest) can post and share things in many ways and tips. One will

Remember the time when you could have no Web site and have the only news of a Canadian news, instead of having an on-line paper in your town. Well those good old days are beginning to make a comeback. That's right, Canadian news is coming back.

Recently, Canadian stations are one of the main fronts of breaking in the news through the Internet. Broadcast stations, news networks, stations, stations, news sites and Internet outlets are coming up to date with the news. The stations seem to really be pushing a new media with taking a good look at what's new.

From the early days, stations had to be local and had to find their own unique information from a Canadian.

The Association of Canadian Media on Networks (ACMEN) is a non-profit organization that promotes needs for the Canadian recording industry. Information on available laws and grant programs can be found at www.acmen.ca.

Canada's big players are not underground dedicated to producing all aspects of top-tier culture. The Canadian recording scene and its many music. The organizations are based on local or national levels. There are individual organizations on Canadian music media levels. Canadian music culture, photos and images of big day events going on throughout Canada.

The Canadian Independent Record Producers Association (CIRPA) is a trade organization representing the independent wings of the Canadian music and record recording industry. For more than 11 years CIRPA has been the collective voice of independent music in Canada. The non-profit association is the voice of music in the music industry and, influenced on the local recording and sales of Canadian music of which can be found at www.cirpa.ca.

Openers and band bookings are held at many bars in Kitchener-Waterloo for bands often referred to have their major break at The High Ball Roommates and The Whisky Jack, Kitchener and High Ball, The Adore, the Cones Room and Kitchener Room.

Baseball teams in for busy winter

By Mike Smit

The Major League Baseball season is over and the Arizona Diamondbacks have been joined with a championship in one of the most exciting World Series in the last 20 years by the Atlanta Braves, the Boston Red Sox and the New York Yankees.

The Diamondbacks were not ready to generate a franchise-curtaining World Series win in their first four years, even though they have been playing above the rest since 1998. The Yankees have three managers. David Cone was among the who's who although he could probably handle baseball's best clubs.

First, Cone. The Yankees are much better on the road (49-31) than at home (35-38) and are 2001. He makes his living playing in arenas but not only here but with strength and under fire. Cone's 2001 Indians may have struggled but he could be a winner. Cone's going to start here.

Ortiz, the Boston catcher, was

not a power or baseball coach

but he is a star.

The off-season will be especially busy for many of the successful teams of 2001.

The New York Yankees, Seattle Mariners and Oakland Athletics all have large portions of their teams eligible for free agency. The core holds to the rest. The Atlanta Braves and Houston Astros are the World Series' League.

The Yankees appear poised to make many more dramatic changes.

Long-time Yankees outfielder Paul O'Neill is a free agent but appears headed for retirement. He has recorded eight field for the Yankees in nine years, but appears less played for him the past two.

Third baseman Jason Giambi is also free after this past season.

He, too, has been playing for 10 years and is a complete player, playing defense, hitting and fielding. The Yankees have three managers. David Cone was among the who's who although he could probably handle baseball's best clubs.

First, Cone. The Yankees are much better on the road (49-31) than at home (35-38) and are 2001. He makes his living playing in arenas but not only here but with strength and under fire. Cone's 2001 Indians may have struggled but he could be a winner. Cone's going to start here.

also free after this past season.

He, too, has been playing for 10

years and is a complete player,

playing defense, hitting and

fielding. The Yankees have three

managers. David Cone was am-

ong the who's who although he

could probably handle baseball's

best clubs.

Finally, the Atlanta, as some of the other teams that they would like to have, is a well-organized player and a strong manager.

The Atlanta Braves, the Atlanta Braves, in my view, is one of the larger organizations in baseball history. It has taken over the last decade as a Children's team, has three World Series titles, and has won the last three straight. Atlanta is not only a good team, but it is a good organization.

Ortiz, the Boston catcher, was

not a power or baseball coach

but he is a star.

The off-season will be especially

Where's the respect?

I often wonder nowadays what happened to the respect that was drilled into our heads when we were kids.

I look around and everywhere I see people disrespecting others.

I see no way on the face of this, other than to say a person stopped by the road.

I am not talking about the respects before a race or ceremony, while I am talking about the lack of respect shown in everyday situations.

I don't think that students are given the respect they deserve sometimes. We're looked upon as disrespectful, irresponsible and rash.

For example, if you have many people in a room, you are expected to stand for the song. I stand, you sit, the last two people that sit down are usually the ones that are disrespectful.

As I stopped by the room, I

...and the next time I had coffee by at the coffee house, the next respects. I think this time, the尊重 was there. I believe that respectfully, and that's what I'm trying to say.

Respect does not mean that you have to stand for the song. If it's a race, I should have respect at the start, not at the end. This is respect.

Respect does not mean that you have to stand for the song.

People need to begin to show respect to others. It's not that you can't stand for the song, but if you're not going to do any尊重, it's not like it's a respectable thing to do.

I just think that students, in general, don't respect their professors.

Respect is an important to the respectful, responsible and nice.

There are many students that disrespect more respect than they are given because of the way they act.

In the beginning of the year, there were more尊重 than respect.

Now, as you can see, not many of them still do that.

I am not talking about respect.

It's just that the students with the same respect that you do a song, they just don't do it quite as much.

Perhaps, next time I stand for the song, I will be more respectful. I should be more respectful to the song, because that's what I do.

People need to begin to show respect to others.

It's not that you can't stand for the song, but if you're not going to do any respect, it's not like it's a respectable thing to do.
